Planned actions

Major challenges

- 1. What are national associations' and firms' challenges and experiences, facing increasing SD requirements?**
'Sustainable' versus 'smart', resilient ... risk of IT and/or operators' dominant position
- 2. How to enhance the SD COM contribution to EFCA policy and provide support to EFCA MAs/firms on SD issues?**
 - Partnering with European entities on SD issues?
 - Promoting best practices on SD?
 - Improving the industry's image on SD in Europe?
