

29 October 2020

Two **EFCA** Committees (European External Aid and Internal Market) decided to hold virtual follow-up meetings with shorter time-intervals and restricted agendas to allow more lively interaction.

The **European External Aid Committee** will report cases of cancellation of Technical Assistance tenders to transfer the budget to COVID-19 emergency response and continuing requests for proposal submissions in paper to DG DEVCO (International Cooperation and Development).

Recently, the Committee raised a series of the industry's concerns and suggestions in writing regarding the August 2020 PRAG (Procedures and Practical Guide), in preparation of a forthcoming meeting with DG DEVCO.

The fourth **EFCA Corona survey** (conducted between 1 and 7 September 2020) concluded that there are signs of stabilisation in the construction industry, with fewer projects lost and a smaller drop in new orders, due to the Covid-19 pandemic.

The December 2020 issue of **Construction Europe** will carry a dual interview with **EFCA** Board members Jacolien Eijer and Roberto Carpaneto: *'How Engineering Consultants can use the Coronavirus Pandemic to speed up the transition to a more sustainable, innovative and greener deal'*.

Secretary General Jan Van der Putten attended the virtual 26 October 2020 launch event of the new European Parliament Intergroup, 'Sustainable, long-term investments & competitive European industry'.

The Belgian Government has taken new safety measures and **teleworking** is again mandatory where possible. Therefore, the EFCA offices will be closed until further notice.

The staff is working from home, and collaborating remotely with all stakeholders.

The EFCA team is available via email: efca@efca.be
